Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	03 October 2022
Team ID	PNT2022TMID48208
Project Name	Project – AI Based Discourse for Banking Industry
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration through Form Registration through Gmail Registration through LinkedIn
FR-2	User Confirmation	Confirmation via Email Confirmation via OTP
FR-3	User Login	Valid login id and password
FR-4	Query support	AI chatbot for support guidelines.
FR-5	Application filled Data's	Authorised details and files to be uploaded
FR-6	Application approval	Admin review and approve the application
FR-7	Banking credentials	User can manage their account credentials

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	**Usability**	Developing application performs operation to maximum extent.
NFR-2	**Security**	Provides highly secured environment to prevent data losses and leaks.
NFR-3	**Reliability**	Software is developed according to the customers reliability
NFR-4	**Performance**	The quality of code provides vast features, highly responsive webpage and optimises the performance
NFR-5	**Availability**	Dynamically available and accessible in smart devices.
NFR-6	**Scalability**	Developed system is highly scalable and perform vast functionality simultaneously.
